5. Mr. Saunders has transmitted to Mr. Nease, of the staff of the Senate Appropriations Committee, certain figures which Mr. Nease requested in connection with the CIA budget. He has been told of the sensitivity of the figures [redacted] but states that this information may never be requested by the Committee. However, he is holding these figures in case he is asked. As Mr. Saunders had already gone to Capitol Hill, we could not carry through the suggestion that perhaps he bring back with him [redacted] and the footnote regarding their sensitivity.
